UV Protection

UV Protection: Dependable protection for artworks & furniture

swissFineLine sliding windows reduce ultraviolet radiation by 99%

- Prolonged exposure to UV radiation can bleach out colour of valuable works of art and photos, as well as flooring, carpets and furniture
- A combination of glass and polyvinyl butyral layers reduce UV radiation by 99% without any impact on the panes' clarity or colour
- Additional measures can be implemented if necessary to increase the UV protection to 99.8%
- Ideal glazing solution for museums and galleries
